Debeilei Wang

Chicago, IL, US debeilei@uchicago.edu

Education

University of Chicago *Sept 2025 – Present*
MS in Computational and Applied Mathematics (MCAM)

- **Graduate Coursework:** Measure-Theoretic Probability I & III, Brownian Motion and Stochastic Calculus, Applied Complex Analysis (in progress), Applied Analysis.

University of Birmingham *Sept 2021 – Jun 2025*
BSc in Applied Mathematics with Mathematics

- First-Class Honours

Jinan University *Sept 2021 – Jun 2025*
BSc in Mathematics and Applied Mathematics

- Overall Score: 90.8/100
- **Core Coursework:** Multivariable & Vector Analysis, Real Analysis, General Topology, Differential Geometry, Linear Algebra, Abstract Algebra I.

Research & Reading Projects

Directed Reading in Random Geometry and SLE *Autumn 2026 – Present*
Led by Prof. Ewain Gwynne, Department of Mathematics, University of Chicago

- Study Schramm–Loewner Evolution (SLE), following Lawler's *Conformally Invariant Processes in the Plane* and the Berestycki–Norris lecture notes.

The Bernstein Problem for Minimal Surfaces *Sept 2024 – Apr 2025*
Undergraduate Thesis, Jinan University & University of Birmingham

- Studied Bernstein's problem for entire minimal graphs over $\mathbb{R}^n$: classical proofs for $n \leq 7$ and the failure mechanism for $n \geq 8$.

Predictive Modeling on Academic Assessment (REF2021) *Jun 2024 – Oct 2024*
Undergraduate Research Bursary, University of Birmingham

- Built Python machine learning pipelines to predict research assessment metrics from REF2021 data.

Teaching Experience

Jinan University *Oct 2024 – Jan 2025*
Teaching Assistant, Integer Programming and Combinatorial Optimization

Jinan University *Mar 2024 – Jun 2024*
Teaching Assistant, Statistics

Jinan University *Oct 2023 – Jan 2024*
Teaching Assistant, Multivariable and Vector Analysis

Honors & Awards

School of Mathematics Undergraduate Research Bursary, *University of Birmingham* Apr 2024

Academic Scholarship, *Jinan University* 2023, 2024, 2025

Skills

Programming & Tools: C, MATLAB, Python, LaTeX
